Part/Runner Separators: Pin Belt or Textured Belt Separators

The picture illustrates a textured belt separator with the optional CTC, or connect-to-conveyor legs. This option interlocks the separator to the conveyor, yet allows for both horizontal and vertical spacing adjustments.

This separator is also available in a freestanding version, which utilizes an inverted T leg support design, adjustable from 18" to 30" as shown. Pin size and density can be specified by the customer, but is typically application driven. These can also be combined in series gaining additional separation with extremely difficult parts/runners.

Length (Actual)	Width Between Frame				
	9"	13"	15"	21"	27"
1' (16")	\$ 1,075.00	\$ 1,130.00	\$ 1,190.00	\$ 1,270.00	\$ 1,345.00
2' (28")	\$ 1,180.00	\$ 1,240.00	\$ 1,310.00	\$ 1,380.00	\$ 1,455.00
3' (40")	\$ 1,290.00	\$ 1,350.00	\$ 1,420.00	\$ 1,490.00	\$ 1,565.00
4' (52")	\$ 1,405.00	\$ 1,460.00	\$ 1,540.00	\$ 1,600.00	\$ 1,675.00

PRICE CHART for Freestanding SH1 Separating Handler only with PIN BELT or TEXTURED BELT Conveyor is additional and its cost will be determined by the Series, required length, width and options like drive, rails, belt, and belt height for example.
