

THE EXPERT IN "PARTS MANAGEMENT SYSTEMS" Work Tables

The work table series is generally used to provide a work surface to complete an inspection or assembly process. The units are constructed of a steel or extruded aluminum frame structure, both structures feature an adjustable height work surface. The work surface features a white laminated plastic top over particle board, the entire unit is mounted on locking casters for portability. Many options are available, such as, scale or container adjustable shelf, power outlets, etc. Custom designs are available, please inquire.

Features:

- Durable 12 gauge welded steel construction
- Telescoping legs, range of adjustment to be from 36-42"
- (4) Two-way, toe-locking, casters with 4" diameter, non-marking, polyurethane wheels
- Plastic laminated particle board
- Painted **MAC** metallic silver
- One year entire system warranty
