Ideal for Storage and Transfer of Material

From Grinders, Surge Bins, Bags, Drums or Gaylord Boxes

Our resin bins are designed for the storage and handling of resin material. They are manufactured from heavy duty polyethylene for toughness, durability, effortless cleaning and visibility of contents. These bulk containers have heavy duty casters simplifying the transport and handling of bulk material. The resin bin's rugged powder coated steel framework provides long-term dependable service.

Stackable up to 3 units High!

Features

- Translucent Side Walls Allow for Material Level Checks
- Vacuum Tube Port Accepts Wands up to 4" in Diameter (except 75 lb. bin which is 2 1/4" dia.)
- Permanently Attached Page Protector Provides a Handy, Pocket for Storing Resin Datasheet
- Removable One Piece Reinforced Lids Suitable for Mounting Equipment
- Stainless Steel Slide Gate and Self-Emptying Design Allow for Quick Material Evacuation
- Ruggedly Designed, Heavy Duty Welded Steel Frame Ensures Stability and Long Life in Demanding Shop and Factory Environments
- Available Options: (see back) Lid Pocket, Handle, Extra Wand Port, Custom Cover, Level Sensor

**RB800 & RB1200

*Capacity based on styrene. Your capacity will vary depending on the density of the material stored

Resin Bins - Options

ORDER PLACEHOLDER RESIN BIN (30671)

and specify options in notes

Custom Covers

- Made of Spandex, which allows the cover to breathe.
- Features one center access port, 8" tall and sized to accept a specific diameter vacuum wand.
- Port includes an elastic band for tight seal and zipper to close the opening when not in use.

Part# 25441	RBC75	\$57.00
Part# 41020	RBC150	\$65.50
Part# 41025	RBC350	\$74.50
Part# 41026	RBC800	\$84.00
Part# 41027	RBC1200	\$84.00

Replacement Lids

- Limited Stock
- Call for availability

Part# 71397	RB75L	\$26.00
Part# 71398	RB150L	\$40.00
Part# 71399	RB350L	\$60.00
Part# 71400	RB800C	\$80.00
Part# 71401	RB1200C	\$100.00

Lid Latches

- Secure lids with 4 latches.

Lid Latch Kit	\$75.00
#11868 Single Latch	\$18.75

Hinged Lid Kit \$88.00/each

- Secures lid with 1 piece hinge.
- #00048338 RB150&RB350

Lid Pocket

- Custom lid pocket for convenient lid storage.

Part# 23616	RB75L	\$47.00
Part# 23617	RB150L	\$49.50
Part# 23618	RB350L	\$63.00

Part# 23620	RB1200C	\$146.00

Handles

- Custom handles for ease of transport.

Part# 23570	RB75L	\$96.50
Part# 23568	RB150L	\$100.50
Part# 23569	RB350L	\$106.00
Part# 23571	RB800C	\$111.50
Part# 23567	RB1200C	\$114.50

Extra Wand Port

- 4" Diameter wand port constructed out of stainless steel. Mounted per customers requirement. **\$75.00**

Material Level Sensor

- Senses the level of material in storage bins once it has fallen to 20% to 50% of the storage bin capacity.

Part# 30960

TRK Prox. Sensor

\$475.00

Aluminum Suction Wand

- 36" Long aluminum suction wand with 1 1/5" diam. line-vacuum.

Part# CP1904

\$295.00

Vacuum Take Off Box

- Conveys material out of storage bins.
- Constructed out of stainless steel material.
- Proximity sensor to detect material.
- 2" inlet valve with cam lock coupling.
- Bottom clean up access door.

Single Vacuum Take off box

Double Vacuum Take off Box

Consult factory for pricing.

Elastic Cone with Zipper

Constructed of a durable breathable material with two elastic bands. Zipper seals off the wand access when no wand is presented reducing contamination.

\$9.95/ea

FOR RB150L / RB350L / RB800C / RB 1200C

Part# 28461	1.5"-2"	Dia. Elastic Cone
Part# 25289	2.5"-3.5"	Dia. Elastic Cone
Part# 25290	4"	Dia. Elastic Cone

FOR RB75L ONLY

Part# 23594	1.5"-2"	Dia. Elastic Cone
Part# 23595	2"-2.5"	Dia. Elastic Cone

Fork Lift Channels

\$190.00

Resin Bins

Ideal for Storage and Transfer of Material

From Grinders, Surge Bins, Bags, Drums or Gaylord Boxes

Portable & Remote Material Loading Systems

The MAC Automatic Resin Bin Loading Station is design to work with MAC's mobile resin storage bins. It is a convenient method for automatically filling these bins from Gaylord or drum containers. **Compressed air loader ideal for short range loading applications up to 600 lbs per hour, air pressure at 80 PSI, Distance 5-10 ft.**

Standard features:

- ◇ Durable welded steel base painted silver metallic.
- ◇ **Load height is adjustable for use with RB75, RB150, RB350, RB800C and RB1200C size bins.**
- ◇ Gas spring assist for height adjustment.
- ◇ 2" diameter pickup wand with hose included.
- ◇ Wand storage point on base.
- ◇ Pneumatic conveyor requires 60-80 PSI compressed air to operate.
- ◇ Cyclone decelerator includes replaceable filter to minimize resin dust.
- ◇ Timer control included with overfill sensor.
- ◇ 4" diameter locking casters for mobility.

Distance	Airflow	Pressure	Average Capacity
15ft	14CFM	80 PSI	450 LBS/HR
30ft	14CFM	80 PSI	245LBS/HR
60ft	14CFM	80 PSI	75LBS/HR
90ft	14CFM	80 PSI	50LBS/HR

Part# CP1885.....**\$4,370.00**

Part# CP1885X.....**\$3,210.00**

Resin Bins

Ideal for Storage and Transfer of Material

From Grinders, Surge Bins, Bags, Drums or Gaylord Boxes

Electric Portable Material Loading System

The Resin Bin Loading Station is designed to work with MAC mobile resin storage bins and Drum or Gaylord Filter Covers. It is a convenient method for automatically filling these bins from Gaylord or drum containers.

PART# 30621/CP2550.....\$6,544.00

Standard features:

- ◇ Durable welded steel base MAC gray powder coated industrial finish
- ◇ **Load height is adjustable for use with RB75, RB150, RB350L, RB800C & RB1200C.**
- ◇ Gas spring assist for height adjustment.
- ◇ Wand storage point on base.
- ◇ Hopper capacity 6 liter, motor 1.4 hp, Throughput 1600 lbs/hr
- ◇ 120V/60/1 Brush type motor with 10' cord, 8 amps
- ◇ Energy efficient solid state controls operating on a batch principle
- ◇ Spun & welded aluminum body construction
- ◇ Automatic conveying for a wide range of materials and conditions
- ◇ Quite by pass air cooled motor with sound deadening
- ◇ Built in circuit breaker overload protection
- ◇ 12' Control cord length
- ◇ Intake is 1-1/2" ID hose
- ◇ 1-1/4" Inlet port
- ◇ 1-1/2" x10' of grounded PVC flexible hose with pick up wand and clamps per inlet
- ◇ Timer control included with overfill sensor.
- ◇ 2" diameter locking casters for mobility.
- ◇ Two Year limited warranty

***Self Cleaning Models Available.**

Uses pulse air to clean the filter (Includes air filter regulator and mounting brackets)
